*Grateful for every single parent who has adequately clothed our learners for the deep cold of the north. Grateful to all of you who are utilizing the northeast parking lot!! Grateful to your diligence in assisting your learners in persisting with school work and supporting our staff!! Grateful to your trust in allowing this addled, old teacher a chance to play a very small part in the lives of your children.

** Camelot is the most unique of schools. Content-based elementary, pre-adolescent bridge to adolescence and the very notion of this fantastic kingdom and honorable intent. The opportunity is enormous and the responsibility to take advantage precipitous. No other district took this step to supply potential for advanced growth with a system that allows practices of habits, perfectly developmentally appropriate, for accelerated personal confirmations. The staff at Camelot realizes the good fortune and with measured haste and wholistic reverence, provide the very best pathway for students to reach for their very best. The difference is lasting. The fortune of a community that advocates for progress, innovation every chance and hope. So, we play Pierre today. A monumental task...but because the real influence takes place daily in the affirmative community focus on who our kids can and will become - sorry Pierre, but either way we win. Our kids are the best where it most counts - lives and potential realized. On that scoreboard, Brookings always wins.*

Willing and loyal servant to Camelot and the Brookings community - Kevin

"Do the right thing, because it is the right thing to do."
